PROFESSIONAL SUMMARY

Full-stack software developer with 1+ year of professional experience designing, building, and deploying production-grade web and mobile applications. Proficient in React, Next.js, Flutter, Node.js, NestJS, and cloud platforms including AWS and Azure, with a strong foundation in database design using MongoDB, PostgreSQL, and MySQL. Experienced in delivering end-to-end solutions, from architecting institutional management systems with CI/CD pipelines and Docker to building e-commerce platforms serving international clients. Promoted from Trainee to Associate Software Engineer within one year at Efito Solutions; recognized as **"Rising Star of 2025."**

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, Dart, Java, PHP
Frontend	React.js, Next.js, Flutter, HTML5, CSS3, TailwindCSS
Backend	Node.js, Express.js, NestJS, FastAPI, REST APIs
Databases	MongoDB, PostgreSQL, MySQL, Prisma ORM
Cloud & DevOps	AWS (EC2, S3, RDS, ECR, Route 53, Amplify), Azure, Docker, GitHub Actions, CI/CD
AI & Automation	n8n, CrewAI, Phidata, VAPI Voice Agent, FastAPI, AI Agents
Tools	Git, Postman, Figma, Cursor IDE, VS Code, Cloudflare, JWT, SEO
Methodologies	Agile, Scrum, MVC Architecture, RESTful API Design

PROFESSIONAL EXPERIENCE

Feb 2026 – Present

Associate Software Engineer

Efito Solutions (Pvt) Ltd — *Remote, Sri Lanka*

- Built the BuilderBid mobile application from scratch using Flutter with full backend and server integration, delivering core features across the platform.
- Integrated QuickBooks Online with BuilderBid for accounting and financial data synchronization, streamlining business workflows.
- Transitioned to the main application team, contributing to system performance improvements and UI modernization across the product.
- Collaborated with API services teams to ensure seamless data flow, optimize existing workflows, and enhance overall application reliability.

Mar 2025 – Jan 2026

Software Engineering Trainee

Efito Solutions (Pvt) Ltd — *Remote, Sri Lanka*

- Developed features and enhancements for the BuilderBid CRM Add-on, working across backend services, automation workflows, and third-party integrations.
- Built and integrated AI-powered agents and chatbots using Python, FastAPI, CrewAI, and n8n, improving internal automation and platform productivity.
- Designed and implemented voice-based AI agents with VAPI, integrating real-time conversational capabilities into production web applications.
- Developed CRM-related modules for the mobile application, aligning technical implementation with real business workflows and user requirements.
- Participated in QuickBooks integration initiatives to support accounting and financial data synchronization within the core platform.
- Collaborated closely with senior engineers and product teams, gaining hands-on experience with production systems and client-driven development environments.

AWARDS & RECOGNITION

2025

Rising Star of 2025

Efito Solutions (Pvt) Ltd

Recognized for strong performance, rapid learning, and impactful contributions during the trainee period. Promoted to Associate Software Engineer within one year.

PROJECTS

Jan 2026 – Mar 2026

OSDEM-DFEC Institutional Management System

Full-Stack Platform — *Next.js, NestJS, PostgreSQL, AWS, Docker* | osdem-dfec.com

- Architected and developed a full-stack institutional management platform to digitize admissions, academic records, staff management, and public impact reporting for a science college.
- Implemented role-based access control across 6 roles, admin review workflows, batch allocation, and a public landing page with live analytics (student outcomes, university entrance rates).
- Built a complete CI/CD pipeline (Tests → Docker build → AWS ECR → EC2 deployment) with secure secrets injection via AWS Secrets Manager.
- Implemented on-page SEO best practices, Google Analytics (GA4), Google Business Profile, and Search Console integration for digital presence.

Tech: Next.js, NestJS, PostgreSQL, Prisma, AWS (Amplify, EC2, RDS, S3, ECR, Route 53), Docker, GitHub Actions, Cloudflare Turnstile, JWT

Jul 2025 – Aug 2025

INPRINT TPS — E-Commerce Platform for Promotional Products

Full-Stack Application — *React 19, Node.js, MongoDB, AWS* | inprint-tps.com

- Developed and deployed a production-ready e-commerce platform for a Qatar-based promotional products company, serving as Frontend, Backend, DevOps, and SEO Specialist.
- Implemented enterprise-grade security with robust authentication, rate limiting, and security headers; achieved excellent Core Web Vitals scores.
- Built a comprehensive SEO strategy resulting in indexing on Google and Bing search engines, driving organic traffic for business clients.

Tech: React 19, TypeScript, Node.js, Express.js, MongoDB, AWS (EC2, S3, CloudFront, Route 53), GitHub Actions, TailwindCSS, JWT

Feb 2024 – Nov 2024

Seyoni — Marketplace Mobile Application (Final Year Project)

Team Lead — *Flutter, Node.js, MongoDB, AWS*

- Led a team of four in full-stack development of a marketplace app using Flutter and MongoDB, incorporating real-time tracking and payment solutions.
- Directed development using Agile methodologies and CI/CD with Git to ensure smooth deployment and cross-platform testing.

Tech: Flutter, Node.js, Express.js, MongoDB, AWS (S3, EC2), Git

2024

Gavel Club of ITUM — Full-Stack Web Platform

- Developed a full-stack platform featuring a dynamic event calendar, blog, gallery, and a secure admin dashboard with JWT authentication, CORS, and XSS protection.

Tech: React.js, Node.js, Azure (App Service, Static Web App), Cloudinary, GitHub Actions, SEO

EDUCATION

National Diploma in Technology — Information Technology

Institute of Technology, University of Moratuwa, Sri Lanka

2022 – 2025

Advanced Level — Physical Science

MR/Minbath National School, Dikwella, Sri Lanka

2018 – 2020

CERTIFICATIONS

GitHub Foundations — GitHub

JavaScript Essential Training — LinkedIn

Postman Student Expert — Postman

Python, SQL, Java — SoloLearn

Foundations of UX Design — Google

Build Wireframes & Low-Fidelity Prototypes — Google

UX Design Process: Empathize, Define, Ideate — Google

C Programming Basics — Udemy

LEADERSHIP & VOLUNTEERING

- **Vice President of Marketing** — AWS Cloud Clubs Sri Lanka (Apr 2025 – Present)
- **Microsoft Learn Student Ambassador** — Microsoft (Jan 2024 – Jan 2026)
- **Webmaster** — Gavel Club, Institute of Technology, University of Moratuwa (Mar 2024 – Apr 2025)
- **Publicity Director** — ITUM Computer Society (May 2023 – Apr 2025)
- **Director of Social Media Management** — ZeroPlastic NDT (Aug 2023 – Apr 2025)
- **Social Media Manager** — OSDEM-DFEC Science Project
